ORCID ID: orcid.org/0000-0002-0550-7949

Date of preparation: 2026-09-07

Academic Appointments

2023-01 Associate Research Scientist
Present Columbia Aging Center

Mailman School of Public
Health, Columbia University

Education

2021-06 Ph.D., Biological Anthropology
*Tradeoffs between reproduction and aging
in the human epigenome*

2018-06 M.A., Biological Anthropology

Northwestern University

2013-06 M.Sc., Biological Sciences

Simon Fraser University

2010-06 B.Sc.(Hons.), Zoology

University of Manitoba

Training

2022-02 Postdoctoral Research Scientist
2022-12

Mailman School of Public
Health, Columbia University

2021-02 Postdoctoral Researcher
2022-02

Department of Anthropology,
Northwestern University

Honors and Career Awards

2023-03	Best Poster International Workshop on Statistical Genetics	Boulder, Colorado, USA
2016-09	NSERC Postgraduate Scholarship <i>Accepted in place of the NSERC Alexander Graham Bell Canada Graduate Scholarship, reserved for top-ranked applicants, in order to carry out PhD in the USA</i>	Natural Sciences and Engineering Research Council of Canada (NSERC), Canada
2011-09	Michael Smith Foreign Study Supplement <i>Research conducted at The Roslin Institute, University of Edinburgh, UK</i>	Natural Sciences and Engineering Research Council of Canada (NSERC), Canada
2010-09	Alexander Graham Bell Canada Graduate Scholarship <i>Highest ranking graduate training grant in Canada</i>	Natural Sciences and Engineering Research Council of Canada (NSERC), Canada
2010-09	Provost Prize of Distinction	Dean of Graduate Studies, Simon Fraser University, Canada
2010-06	Harold E. Welch Award <i>Awarded for highest academic standing among all Honours students in the Bachelor of Science degree program</i>	Faculty of Science, University of Manitoba, Canada
2010-06	David Ian Mackenzie Medal <i>Awarded for highest academic standing among all students in the Zoology degree program</i>	Department of Zoology, University of Manitoba, Canada
2009-01	IDP Student Mobility Scholarship	IDP Education and University of Wollongong, Australia
2009-09	UMSU Scholarship for Excellence in Academic Achievement	University of Manitoba Students Union and University of Manitoba, Canada
2008	Undergraduate Summer Research Award (USRA)	Natural Sciences and Engineering Research Council of Canada (NSERC), Canada
2008	W.B. Scott Scholarship in Ichthyology	Huntsman Marine Science Centre, Canada
2007	Undergraduate Summer Research Award (USRA)	Natural Sciences and Engineering Research Council of Canada (NSERC), Canada

2007-06	Isbister Scholarship <i>Awarded to the 10 first-year university students with the highest academic standing</i>	Manitoba Scholarship and Bursary Initiative and University of Manitoba, Canada
2006-09	UMSU Scholarship for Excellence in Academic Achievement	University of Manitoba Students Union and University of Manitoba, Canada

Administrative Leadership and Academic Service

2023	Invited Scholar The Long-Term Effects of Pregnancy on Aging	National Institute on Aging Bethesda, Maryland, USA
2023	Invited Scholar Netherlands Institute for Advanced Study in the Humanities and Social Sciences (NIAS)	Early Health Disparities and Late Life Outcomes Amsterdam, Netherlands
2022	Meeting Reporter Canadian Institute for Advanced Research (CIFAR)	Child and Brain Development Vancouver, Canada
2021	Subcommittee on Aging Telomere Research Network	Tulane University NIA and NIEHS (NIH)
2019-	Meeting Co-organizer	Northwestern University
2020	Northwestern R User Group	Evanston, Illinois

Professional Organizations and Societies

Memberships and Positions

Member, American Association of Anthropological Genetics
 Member, American Association of Physical Anthropologists;
 Member, Human Biology Association;
 Member, International Society for Evolution, Medicine, and Public Health;
 Member, The Gerontological Society of America

Editorial Board

Associate Editor: *Epigenetics Reports*

Grant Reviewing

2025 National Medical Research Council (NMRC), Singapore
 2022 National Science Foundation (NSF), USA
 2016 The Israeli Science Foundation (ISF), Israel

Journal Reviewing

Advances in Geriatric Medicine and Research; Aging; Aging Cell; American Journal of Human Biology; Annals of Human Biology; Archives of Gynecology and Obstetrics; Behavioral Ecology; Behavioral Ecology and Sociobiology; Bioessays; BMC Bioinformatics; BMC Public Health; The BMJ; Cell Reports Medicine; Cell Metabolism; Clinical Epigenetics; Current Zoology; Demography; Diabetes Metabolism Research and Reviews; Environmental Research; Epigenetics; Evolution, Medicine, and Public Health; Evolutionary Applications; Exposome; Frontiers in Genetics; Frontiers in Zoology; GeroScience; Genome Medicine; Human Reproduction; Journal of Mammology; Journal of Molecular Evolution; Journals of Gerontology; Molecular Biology Reports; Mechanisms of Aging and Development; National Science Foundation; Nature Communications; Oncotarget; Proceedings of the National Academy of Sciences; Scientific Reports; Women's Health Report

Fellowship and Grant Support

Active Funding

2026-04	Alzheimer's Association Research Grant	US\$199,999
2029-07	Multi-Omic Links Between Reproductive Aging and AD Risk Among Midlife Women Role: Co-I (PI: Avila-Reiger) AARGA-26-1561061	
2026-02	Advanced Research Projects Agency	US\$10,554,642
2027-07	for Health (ARPA-H) Finding Aging Biomarkers by Searching Existing Trials (FAST) Role: Co-I (PI: Belsky) AY2AX000158	

2025-12	National Institutes of Health (NIH)	US\$4,104,324
2027-07	Long-term multi-omics follow-up of the CALERIE Trial to generate new knowledge for geroscience Role: Co-I (PI: Belsky) 2R01AG061378	
2025-04	National Institutes of Health (NIH)	US\$4,134,258
2030-03	Leveraging IVF to Identify Prenatal Effects Independent of Shared Maternal-Child Genes Role: Co-I (MPIs: Monk and Williams) 1R01HD118949-01	

Completed Funding

2024-12	CUIMC Healthy Aging Initiative	US\$55,000
2025-12	(CHAI) Pilot Grant Quantification of Biological Aging in Electronic Health Record Data for Precision Prognosis in ICU Patients Role: Co-I (PIs: Belsky and Moitra)	
2021-06	Telomere Research Network Pilot	US\$4,000
2021-12	Award (NIH/NIEHS) Exploring the links between ovarian aging and somatic aging in humans: A study of leukocyte telomere length across the menopausal transition in a Philippine cohort Role: MPI w/ Kuzawa	
2018-03	National Science Foundation (NSF-DDIG)	US\$31,205
2021-02	Quantifying the costs of human reproduction using the 'Epigenetic Clock' Role: MPI w/ Kuzawa NSF1751912	

Pending Funding

Submitted	National Institutes of Health (NIH)/Department of Health and Human Services (DHHS)	US\$4,022,330
2025-10	Epigenetic surrogates of reproductive history and ovarian senescence in Alzheimer's disease risk Role: MPI w/ Avila-Reiger	

Research Fellowships

2019	Data Science Fellowship Data Science for the Social Sciences Initiative Development Grant	Northwestern University
2018	Le Cron Foster and Friends of Anthropology Research Grant	Northwestern university
2018	Computational Essentials for Social Scientists Data Science for the Social Sciences Initiative	Northwestern University
2018	Intensive in Computational Evolutionary Medicine Evolutionary Medicine Summer Institute (EMSI)	Duke University
2015- 2016	Graduate Research Assistant Institute for Policy Research	Northwestern University
2012	Dean of Graduate Studies Fellowship	Simon Fraser University
2011	Dean of Graduate Studies Fellowship	Simon Fraser University

Educational Contributions

Direct Teaching

2022- 2025	Guest Lecturer, Life Course Epidemiology, Columbia University Mailman School of Public Health, Columbia University
2023- 2025	Invited Speaker, Children's Hospital Summer Internship Program, University of Colorado Anschutz Medical Campus
2024	Guest Lecturer, Environmental Epigenetics, Department of Anthropology, University of Texas Austin
2021	Guest Lecturer, Evolutionary Medicine, Department of Anthropology, Northwestern University
2020	Class Guest Author, Early Life Origins of Health and Wellbeing, Department of Anthropology, Emory University
2019	Workshop Assistant, Intro to R, R for Stata Users, Northwestern University, Research Computing Services
2019	Guest Lecturer, Evolutionary Medicine, Department of Anthropology, Northwestern University
2018	Teaching Assistant, Human Population Biology, Department of Anthropology, Northwestern University

- 2017 Guest Lecturer, Epigenetic Processes in Health and Evolution, Department of Anthropology, Northwestern University
- 2016 Guest Lecturer, Evolutionary Medicine, Department of Anthropology, Northwestern University
- 2012 Guest Lecturer, Endocrinology, Department of Biology, Simon Fraser University
- 2006-2009 Lab demonstrator and Tutor, Cell Biology, Department of Biology, University of Manitoba

Advising and Mentorship

- 2022-2025 Graduate Student Mentor (w/ Belsky), Columbia University Mailman School of Public Health, Columbia University

Co-mentored 20+ students in the Masters of Public Health and Masters of Biostatistics programs in data practices, problem solving, and professional development. Students have successfully transitioned to health research (e.g. New York Presbyterian Hospital, Massachusetts General Hospital), industry (e.g. CVS) and academia (e.g. PhD programs at Vanderbilt, UNC-Chapel Hill, and UT Austin).

- 2020-2022 Summer Undergraduate Research Assistant Fellowship (w/ Kuzawa), Institute for Policy Research, Northwestern University

Mentored two summer undergraduate students through the conceptualization, design, and analysis of projects related to epigenetic aging and early life development. Ms. Milan Hilde-Jones is now a graduate student at the Johns Hopkins Bloomberg School of Public Health. Mr. Raviraj Rege is studying medicine at Rice University. This work resulted in a manuscript published in *Clinical Epigenetics*.

- 2018-2020 Virtual Science Mentor, Mentor Matching Program, Illinois Science and Technology Institute (ISTI)

Provided guidance and feedback to high school students developing independent STEM research projects. Supported students in designing experiments, analyzing data, and communicating scientific findings. Encouraged problem-solving, critical thinking, and professional communication through virtual mentorship and project review sessions.

Educational Administration and Leadership

Program Development and Infrastructure

2022-2026 Training and Computational Infrastructure Development, Geroscience Computational Core

Designed and implemented a scalable onboarding and training system for biostatistics trainees. *Includes structured skills assessment, standardized coding practices, and reproducible workflow training*

Developed “Smart R: Practical Coding Habits for Data Science Success,” a training curriculum for data management, reproducibility, and collaborative workflows.

Established cloud-based collaborative data science environment (OneDrive + structured directory systems) enabling reproducible and shareable analysis pipelines.

Provide training in AWS-based computing environments (Ronin), including machine setup, data access, and large-scale omics analysis.

Founded and maintain the [Columbia Geroscience Computational Core GitHub](#), supporting shared code and cross-project collaboration.

2019-04	Poverty Could Leave Its Mark on Genes	US News and World Report
2019-04	The link between socioeconomic status and genes	European Scientist
2017-09	Your Childhood Experiences Can Permanently Change Your DNA	Smithsonian Magazine

Patents and Inventions

Framingham-PACE	Ryan is an co-inventor of the FraminghamPACE epigenetic speedometer, patent pending. FraminghamPACE is a DNA methylation algorithm that measures the pace of biological aging. Working with Belsky and Geroscience Computational Core at Columbia, FraminghamPACE was developed in collaboration with the Moffitt-Caspi Lab at Duke University. The algorithm will be free to researchers. TruDiagnostic has secured the option for exclusive license for commercial applications.

Invited and/or Peer-Selected Presentations at Local, Regional, National or International Levels

Invited Speaker: International

8. Ryan, C.P. (Speaker). Effect of long-term caloric restriction on DNA methylation measures of biological aging in healthy adults from the CALERIE trial. Foresight Institute: Biotech and Health Extension Group. Remote. January 9th, 2024.
7. Ryan, C.P. (Speaker). Quantifying Biological Aging Using Epigenetic Clocks. Office of Population Studies Foundation, University of San Carlos, Cebu City, Philippines. July 19th, 2022.
6. Ryan, C.P. (Speaker). Epigenetic Clocks in Primates and Other Species. Primate-omics Journal Club, Remote. August 4th, 2021.
5. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Département d'Anthropologie, Université de Montréal. Remote. March 19th, 2021.
4. Ryan, C.P. (Speaker). Using whole genome DNA methylation to study the costs of reproduction in a cohort of young Filipino women. Department of Biochemistry and Medical Genetics, University of Manitoba, Winnipeg, MB, Canada. January 24th, 2019.

3. Ryan, C.P. (Speaker). Evolution and Disease in the Human Androgen Receptor. Department of Biological Sciences Seminar Series, University of Manitoba, Winnipeg, MB, Canada. November 29th, 2013.
2. Ryan, C.P. (Speaker). Ryan, C.P. (Invited Speaker). Endocrine control of clutch-size determination in *Taeniopygia guttata*. Department of Behavioural Biology, Linnaeusborg Centre for Life Sciences, University of Groningen, the Netherlands. December 8th, 2011.
1. Ryan, C.P. (Speaker). Ryan, C.P. (Invited Speaker). Physiological orchestration of life history traits: Why do mechanisms matter? Center for Ecology and Hydrology, Edinburgh, Scotland, UK. November 29th, 2011.

Invited Speaker: National

10. Ryan, C.P. (Speaker). Cross-sectional and longitudinal changes in gravidity are associated with accelerated epigenetic age in young and middle-aged women in the Philippines. National Institute on Aging (NIA). Workshop on the Long-Term Effects of Pregnancy on Aging. Bethesda, MD, USA. November 1st, 2023.
9. Ryan, C.P. (Speaker). Cross-Sectional and Longitudinal Changes in Gravidity are Associated with Accelerated Epigenetic Age in Young and Middle-Aged Women in the Philippines. National Bureau of Economic Research (NBER), Cohort Studies Meeting. Los Angeles, CA, USA. January 19–21, 2023.
8. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, Binghamton University. Remote. March 3rd, 2022.
7. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, University of North Carolina Chapel Hill. Chapel Hill, North Carolina, USA. February 20th, 2022.
6. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, Pennsylvania State University. Remote. January 27th, 2022.
5. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, Emory University, Atlanta, GA, USA. February 3rd, 2020.
4. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, University of Minnesota Twin Cities, Minneapolis, MN, USA. January 27th, 2020.
3. Ryan, C.P. (Speaker). Tradeoffs Between Reproduction and Aging in the Human Epigenome. Department of Anthropology, Baylor University, Waco, TX, USA. November 20th, 2019.

2. Ryan, C.P. (Speaker). Evolution in Medicine, Human Reproduction, and Health. 22nd annual Britton C. and Lucille McCabe Lecture, Springfield College, Springfield, MA, USA. April 11th, 2019.
1. Ryan, C.P. (Speaker). Epigenetic Change As Biological Memory: Potential Pathways for Lifecourse Health Determinants in the Philippines. Department of Anthropology, Northwestern University, February 24th, 2017.

Oral Presentations at Professional Meetings

12. **Ryan, C.P.**, Lee, N.R., Carba, D.B., MacIsaac, J.L., Lin, D.S., Atashzay, P., Belsky, D.W., Kobor, M.S., McDade, T.W., Kuzawa, C.W. Cross-sectional and longitudinal changes in gravidity are associated with accelerated epigenetic age in young and middle-aged women in the Philippines. 48th Annual Meeting of the Human Biology Association. Reno, Nevada, U.S.A. April, 20th, 2023.
11. **Ryan, C.P.**, Rej, P.H., Holman, D.J., Lee, N.R., Hayes, M.G., Kuzawa, C.K., Eisenberg, D.T.A. Exploring the links between ovarian aging and somatic aging in humans: A study of leukocyte telomere length across the menopausal transition in a Philippine cohort. Telomere Research Network Annual Meeting, December 2nd, 2021. New Orleans, Louisiana, U.S.A.
10. **Ryan, C.P.**, Jones, M.J., Borja, J.B., McDade, T.W., Kuzawa, C.W. Testing for costs of reproduction using a new ‘epigenetic clock’ of all-cause mortality in a cohort of young women in the Philippines. Human Biology Association 45th Annual Meeting, April 15-17th, 2020. Los Angeles, California, U.S.A.
9. **Ryan, C.P.**, Kuzawa, C.W. Germline epigenetic inheritance: Challenges and opportunities of linking paternal experience with offspring biology and health. American Association of Physical Anthropologists and American Association of Anthropological Genetics, 44nd Annual Meeting, March 30th, 2019. Cleveland, Ohio, U.S.A
8. **Ryan, C.P.**, Edgar, R.D., Jones, M.J., Kobor, M.S., Borja, J.B., McDade, T.W., and Kuzawa C.W. Genome-wide DNA-methylation varies with reproductive status and supports costs of reproduction in a cohort of young Filipino women. International Society for Evolution, Medicine, and Public Health, 4th Annual Meeting, August 3rd. 2018. Park City, Utah, U.S.A.
7. **Ryan, C.P.**, Jones, M.J., MacIsaac, J.L., Morin, A., Borja, J.B., Kobor, M.S., Kuzawa, C.W., McDade, T.W. Epigenetic pathways of intergenerational phenotypic inertia in birth weight: Evidence from mothers in Cebu, Philippines. American Association of Physical Anthropologists and American Association of Anthropological Genetics, 42nd Annual Meeting, April 22nd, 2017. New Orleans, Louisiana, U.S.A.

6. **Ryan, C.P.**, Georgiev, A.V., McDade, T.W., Gettler L.T., Eisenberg, D.T.A., Hayes, M.G., Kuzawa, C.W. Variation in the androgen receptor modulates the relationship between testosterone and sexually dimorphic traits in adult males. Human Biology Association, 41st Annual Meeting, April 13-14, 2016. Atlanta, Georgia, U.S.A.
5. **Ryan, C.P.**, Dawson, A.S., Sharp, P.J. and Williams, T.D. Hormone-trait relationships for experimentally enlarged clutches continue to challenge the prolactin-based model for clutch-size determination. Society for Integrative and Comparative Biology, Annual meeting and exhibition, Jan. 3-7, 2013. San Francisco, California, U.S.A.
4. **Ryan, C.P.**, Dawson, A.S., Sharp, P.J. and Williams, T.D. Testing the prolactin-based mechanism for avian clutch-size determination in captive Zebra finches: Individual variability in hormone-trait relationships. North American Ornithological Conference, August 15-18, 2012. Vancouver, British-Columbia, Canada
3. **Ryan, C.P.**, Dawson, A.S., Sharp, P.J. and Williams, T.D. Experimental evidence for a role of prolactin in modulating avian clutch-size. Society for Integrative and Comparative Biology, Annual meeting and exhibition Jan. 3-7, 2012. Charleston, South Carolina, U.S.A.
2. **Ryan, C.P.**, Anderson, W.G., and Hare, J.F. Glucocorticoids, litter size optimization and sex allocation in *Urocitellus richardsonii*. Society for Integrative and Comparative Biology, Annual meeting and exhibition, Jan. 3-8, 2011. Salt Lake City, Utah, U.S.A.
1. **Ryan, C.P.**, Anderson, W.G., and Hare, J.F. Struggling mothers, strong sons: optimization and adaptive sex allocation in Richardson's ground squirrels (*Spermophilus richardsonii*). Annual meeting for the Canadian Society of Zoologists, May 17-21, 2010. Vancouver, British Columbia, Canada

Poster Presentations at Professional Meetings (Selected)

6. **Ryan, C.P.**, Bose, P., Eckstein Indik, C., Belsky, D.W. The Columbia Aging Center Geroscience Computational Core (GCC). Healthspan Extension Summit. April 19th. 2024. New York, NY.
5. **Ryan, C.P.**, Lee, N.R., Carba, D.B., MacIsaac, J.L., Lin, D.S., Atashzay, P., Belsky, D.W., Kobor, M.S., and Kuzawa, C.W. Pregnancy number is linked to faster epigenetic aging in young women, but not same-aged cohort men in the Cebu Longitudinal Health and Nutrition Survey (CLHNS). Healthspan Extension Summit. April 19th, 2024. New York, NY.

4. [†]**Ryan, C.P.**, Lee, N.R., Carba, D.B., MacIsaac, J.L., Lin, D.S., Atashzay, P., Belsky, D.W., Kobor, M.S., and Kuzawa, C.W. Cross-sectional and longitudinal changes in gravidity are associated with accelerated epigenetic clock age in young and middle-aged women in the Philippines. International Workshop on Statistical Genetics, March 6-10th, 2023. Boulder, CO. U.S.A.
[†]Awarded Best Poster at the International Workshop on Statistical Genetics, 2023.
3. **Ryan, C.P.**, Lee, N.R., Carba, D.B., MacIsaac, J.L., Lin, D.S., Atashzay, P., Belsky, D.W., Kobor, M.S., and Kuzawa, C.W. Cross sectional and longitudinal changes in gravidity are associated with accelerated epigenetic clock age in young and middle-aged women in the Philippines. New York City Epidemiology Forum, May 23rd, 2022. New York, NY, U.S.A.
2. **Ryan, C.P.**, Lin, D.S., Kobor, M.S., McDade, T.W., Kuzawa, C.W. DNA methylation measurements using dried blood spots on the Illumina EPIC array yield high quality data comparable to whole blood measured using the 450k array. American Association of Physical Anthropologists, 45th Annual Meeting, April 15-17th, 2020. Los Angeles, California, U.S.A.
1. **Ryan, C.P.**, Edgar, R.D., Jones, M.J., Kobor, M.S., Borja, J.B., McDade, T.W., Kuzawa, C.W. Genome-wide DNA-methylation in pregnancy and breastfeeding mark a ‘landscape of adaptive immunity’ and novel biological networks. Human Biology Association, April 12th, 2018. 43rd Annual Meeting, Austin, Texas, U.S.A.
